Background

After a couple of years of disruption due to the pandemic, 2022 saw the return of some of our most established events as well as the launch or refresh of new ones.

The RTPI NI Conference in September 2022 was our first in-person event of the year.. To coincide with the new format of the RTPI Awards for Planning Excellence we held a lunchtime awards ceremony in W5 in June to celebrate Northern Ireland award winners. We also held a Welcome Lunch for those newly Chartered Planners, which we hope will continue as an annual event.

As well as offering a growing CPD programme, RTPI Northern Ireland is working on activities to promote planning as a career with key partners across Northern Ireland.

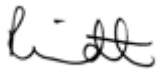

RTPI Northern Ireland plans to build on the 2022 work in 2023. To do this, RTPI NI would like to offer the opportunity to sponsor key events and activities.

In this document you will find details of proposed activities, and where appropriate a financial value of this support. However, it is not only financial contributions which are being sought: speakers, venues and other contributions are also needed, as is your general support for events and activities.

If you would like to discuss any of the opportunities set out in this document, or you would like to propose alternatives, please contact me on the details at the end of the brochure.

I look forward to hearing from you.

With Regards,

Roisin Willmott OBE FRTPi
Director, RTPI Northern Ireland

Promoting Planning as a Career

The RTPI Future Planners initiative involves volunteer Ambassadors helping to raise awareness of town planning, and championing what a great career it is.

Ambassadors can be asked to promote the profession at university careers fairs and school assemblies, or work with teachers to help embed planning in the curriculum. You could help with writing a case study which we can turn into a lesson or skills workshop. You could ask your company to offer an experience insight day for a student or class.

Stepping up to 'give back' to the profession could be a fantastic way to practise your communication skills, and a fun way to make links to community engagement and public consultations you've undertaking in your workplace. If that is the case, and it meets your personal development plan objectives, it could also be counted as CPD.

The RTPI website has more information [online](#) (log in required).

If you are interested or would like more information please contact us.
